

Podium Session

PD58-08 - A statewide quality improvement collaborative's adherence to 2017 AUA guidelines regarding initial evaluation of renal masses

 Sunday, May 5  4:40 PM - 4:50 PM  Location: MCP: W184d

Abstract Presenter(s)**Kyle Johnson**

Presentation Authors: Kyle Johnson*, Alon Weizer, Anna Johnson, Ann Arbor, MI, Sanjeev Kaul, Royal Oak, MI, Tae Kim, James Montie, Ann Arbor, MI, Tony Pinson, Jackson, MI, Zack Prebay, Milwaukee, WI, Ji Qi, Ann Arbor, MI, Craig Rogers, Detroit, MI, Michael Traver, Holland, MI, Brian Lane, Grand Rapids, MI, for the Michigan Urological Surgery Improvement Collaborative, Ann Arbor, MI

Introduction: The American Urological Association (AUA) published guidelines for renal mass and localized renal cancer in 2017. The Michigan Urological Surgery Improvement Collaborative: Kidney mass: Identifying and Defining Necessary Evaluation and therapy (MUSIC-KIDNEY) program analyzes the patterns of care across the state of Michigan for patients diagnosed with localized renal masses

Methods: Proposed and approved in 2015, MUSIC-KIDNEY commenced after beta testing with data collection in September 2017 at 8 diverse MUSIC practices. Data abstractors recorded clinical, radiographic, pathologic, and short-term follow-up data into the registry for patients with a newly-diagnosed RM

Results: During the initial 12 months of data entry, 8 pilot practices (39 physicians) evaluated 581 patients with newly diagnosed RM

Conclusions: In the initial assessment of clinical evaluation patterns for patients with localized RM

Source of Funding: Funding from Blue Cross Blue Shield of Michigan
