

## Making a Difference in Prostate Cancer Care

### Michigan Urological Surgery Improvement Collaborative (MUSIC)

Your urologist is part of MUSIC. The goal of MUSIC is to improve care for men with prostate cancer in the state of Michigan. This includes men currently facing prostate cancer, as well as men diagnosed with prostate cancer in the future. Urologists around the state have come together to participate in MUSIC and improve prostate cancer care.

As part of these efforts, the MUSIC-Patient Reported Outcomes (PRO) survey collects health related information from men scheduled to have radical prostatectomy surgery (removal of the prostate). Your responses to this survey will provide better information about your symptoms and functioning both before and after surgery. This information can be used by your doctor to help you and other patients achieve the best possible recovery after prostate cancer surgery.

As part of MUSIC, your urologist will use the online registry to collect and store information about your health and quality of life before and after your surgery, including your responses to these surveys. Surveys will be sent before your surgery and again 3, 6, 12, and 24 months after. Reports will be provided back to your urologist and may become part of your medical record. **This information will be essential to our efforts to improve surgical care and quality of life for men in Michigan with prostate cancer.**

Your contact information will only be used by MUSIC to help with the online website and to help your urologist collect your responses. MUSIC is required by law to protect your health information. Completing these surveys is encouraged, but voluntary. If you prefer not to receive information in the future, please send a message to the MUSIC Coordinating Center by emailing, [musicurology@umich.edu](mailto:musicurology@umich.edu) or calling 1-855-456-2035. Thank you.

### Benefits of Completing Surveys

- Save time by completing surveys before appointments with your urologist.
- Track your recovery after prostate cancer surgery. The MUSIC-PRO reports help you and your urologist monitor your quality of life after surgery.
- Help other patients. Your participation will also help improve care for future patients with prostate cancer.

*Your health. Your family. Your legacy.*

## Patient Questionnaire

---

*Please complete the attached survey.*

*Print your name, sign, and date below. Thank you.*

Patient Name (print): \_\_\_\_\_

Patient Signature: \_\_\_\_\_

Date completed (MM/DD/YYYY): \_\_\_\_\_

Patient Questionnaire

---

The following questions pertain to your current state of health and relationship status.

1. Using the scale below, circle one number that indicates how you feel about your current state of health.

0 1 2 3 4 5 6 7 8 9 10  
**Very Poor** **Average** **Excellent**

2. Please select one response, which best describes you:

Are you:

- Married
- In a committed relationship
- Dating
- Divorced
- Widowed
- Single

This questionnaire is designed to measure Quality of Life issues in patients with prostate cancer. To help us get the most accurate measurement, it is important that you answer all questions honestly and completely.

Questions regarding sexual function, activities, and erectile use include all forms of sexual activity in the PAST 4 WEEKS.

Remember, as with all medical records, information contained within this survey will remain strictly confidential.

Patient Questionnaire

1. Over the **past 4 weeks**, how often have you leaked urine?
  - More than once a day
  - About once a day
  - More than once a week
  - About once a week
  - Rarely or never
  
2. Which of the following best describes your urinary control **during the last 4 weeks**?
  - No urinary control whatsoever
  - Frequent dribbling
  - Occasional dribbling
  - Total control
  
3. How many pads or adult diapers per day did you usually use to control leakage **during the last 4 weeks**?
  - None
  - 1 pad per day
  - 2 pads per day
  - 3 or more pads per day

4. How big a problem, if any, has each of the following been for you **during the last 4 weeks**?

	No Problem	Very Small Problem	Small Problem	Moderate Problem	Big Problem
a. Dripping or leaking urine	0	1	2	3	4
b. Pain or burning on urination	0	1	2	3	4
c. Bleeding with urination	0	1	2	3	4
d. Weak urine stream or incomplete emptying	0	1	2	3	4
e. Need to urinate frequently during the day	0	1	2	3	4

Patient Questionnaire

5. Overall, how big a problem has your urinary function been for you **during the last 4 weeks?**

- No problem
- Very small problem
- Small problem
- Moderate problem
- Big problem

6. How would you rate each of the following **during the last 4 weeks?**

	Very Poor	Poor	Fair	Good	Very Good
a. Your ability to have an erection?	0	1	2	3	4
b. Your ability to reach orgasm (climax)?	0	1	2	3	4

7. How would you describe the usual **QUALITY** of our erections **during the last 4 weeks?**

- None at all
- Not firm enough for any sexual activity
- Firm enough for masturbation and foreplay only
- Firm enough for intercourse

8. How would you describe the **FREQUENCY** of your erections **during the last 4 weeks?**

- I NEVER had an erection when I wanted one
- I had an erection LESS THAN HALF the time I wanted one
- I had an erection ABOUT HALF the time I wanted one
- I had an erection MORE THAN HALF the time I wanted one
- I had an erection WHENEVER I wanted one

9. Overall, how would you rate your ability to function sexually **during the last 4 weeks**?
- Very poor
  - Poor
  - Fair
  - Good
  - Very good
