- No ejaculate
- No erection
- Urine leak during intercourse
- Pain/discomfort during intercourse
- Other

-----End of EPIC 26 Questionnaire-----

Men who have prostate cancer may be asked to decide what kind of care they want. There may be different options, or choices.

20. We want to know if you are thinking about options for your prostate cancer care. At this time, would you say:

- I haven't started to think about the options
- I haven't started to think about the options, but I want to start
- I am thinking about the options now
- I am close to choosing an option
- I've already made a decision, but am still waiting to think again (reconsider)
- I've already made a decision and probably won't change my mind

Thank you! The next questions ask about things that may be important to you, or influence you, as you think about what prostate cancer care to choose.

21. How much influence might a **co-worker's** opinion, advice, or story about cancer have as you think about your prostate cancer care decision?

- No influence
- A little influence
- Some influence
- A lot of influence

22. How much influence might a **friend's** opinion, advice, or story about cancer have as you think about your care decision?

- No influence
- A little influence
- Some influence
- A lot of influence

23. How much influence might a **spouse/partner's** opinion, advice, or story about cancer have as you think about your care decision?

- No influence

- A little influence
 - Some influence
 - A lot of influence
24. How much influence might **a family member's** opinion, advice, or story about cancer have as you think about your care decision?
- No influence
 - A little influence
 - Some influence
 - A lot of influence
25. How much influence might **future bladder problems** have on your care decision?
- No influence
 - A little influence
 - Some influence
 - A lot of influence
26. How much influence might **future bowel problems** have on your care decision?
- No influence
 - A little influence
 - Some influence
 - A lot of influence
27. How much influence might **future sexual problems** have on your care decision?
- No influence
 - A little influence
 - Some influence
 - A lot of influence
28. How much influence might **still being able to do your recreation activities** (things you do for fun) have on your care decision?
- No influence
 - A little influence
 - Some influence
 - A lot of influence
29. How much influence **might still being able to work, or do activities in your job**, have on your care decision?
- No influence
 - A little influence
 - Some influence
 - A lot of influence
30. How much influence might **the number of years you expect to live** have on your care decision?
- No influence
 - A little influence
 - Some influence

- A lot of influence
31. How much influence might **your religion or faith** have on your care decision?
- No influence
 - A little influence
 - Some influence
 - A lot of influence
32. The role you play in deciding on care for your prostate cancer is important. Please choose one statement that best says how you would like your care decision to be made.
- I prefer to make the final decision myself after thinking about my doctor(s)' opinion.
 - I prefer that my doctor(s) and I share the decision about which option is best.
 - I prefer that my doctor(s) make the final care decision, but think about my opinion.
