Next Steps

Using TrueNTH after Completing P3P

After completing the P3P questionnaire, you will see a prompt to register for a TrueNTH account. Creating a TrueNTH account will allow you to log back into P3P at any time to access your report.

With an account, you can also use online tools for managing symptoms, making healthy meals at home and customizing your exercise routine.

Registering for a TrueNTH account is optional and will not affect your P3P report or experience.

TrueNTH’s Mission

To guide those navigating the prostate cancer journey and to improve care. It is an initiative of the Movember Foundation, the only global charity focused solely on men’s health.

For questions about the Michigan Urological Surgery Improvement Collaborative, please contact us at musicurology@umich.edu

MUSIC is sponsored by:

A nonprofit corporation and independent licensee of the Blue Cross and Blue Shield Association
What is MUSIC?
MUSIC represents urologists, like your doctor, from across the state of Michigan who work together to improve urologic care now and in the future.

What is TrueNTH P3P?
With MUSIC’s goal to make Michigan #1 in prostate cancer care, our urologists have partnered with TrueNTH (true north) to provide Personal Patient Profile-Prostate (P3P) to patients.

P3P is a one-time online questionnaire for newly diagnosed prostate cancer patients. All patients with localized prostate cancer (cancer that’s just inside the prostate) are encouraged to complete P3P.

Movember Foundation is a global nonprofit organization focused on improving men’s health. One of the organization’s programs, TrueNTH, is dedicated to improving the quality of care for prostate cancer patients. TrueNTH introduced P3P as a shared decision making resource for patients with newly diagnosed prostate cancer.

How do I participate?
After your prostate biopsy:
☐ Check your email for a message:

FROM: noreply@us.truenth.org
SUBJECT: From Dr._____________
Please Complete Your Questionnaire.

Prior to your visit with your doctor:
☐ Click on the link provided in the email to complete the questionnaire.
☐ Answering all the questions will take about 15 minutes.
☐ Review your P3P report.

During your visit with your doctor:
☐ You and your doctor will review your responses and together discuss your different treatment options.

During your visit
The results of your questionnaire will be provided to your doctor who will use your responses to discuss treatment options that are best for you based on your health and preferences.

Your answers will remain secure and confidential between you and your doctor.

Participation in P3P
To give you the best care, your doctor first needs to understand your preferences, values, and goals.

P3P will ask you a series of questions, that will help educate and prepare you for your conversation with your physician about your prostate cancer treatment options.

Please complete P3P before your next doctor’s visit. This is important for you to have a good conversation and decide on a treatment that is right for you.
