Improving Patient Outcomes After Surgery

What is MUSIC?

MUSIC represents urologists, like your doctor, from across the state of Michigan who have come together to improve urologic care for patients now and in the future.

What is MUSIC PRO?

The **MUSIC Patient Reported Outcomes (PRO)** project aims to improve health outcomes for men undergoing radical prostatectomy (surgery to remove the prostate) for their prostate cancer treatment:

- Patients who have chosen prostate surgery as treatment for their cancer are asked to complete a questionnaire before and after surgery.
- MUSIC PRO's goal is to **help your doctor understand your symptoms and optimize recovery after your surgery.**
- This information may also help to improve recovery and outcomes for future prostate cancer patients undergoing prostate surgery.

To Patients, By Patients, For Patients

Who participates in PRO?

- Your physician encourages all prostate cancer patients choosing prostate surgery to complete the questionnaires.
- Your participation will allow for a better understanding of your health, pain control, function and how this changes after surgery.
- Your information, without personal details (name, date of birth, etc.), will also help to improve the care of other men diagnosed with prostate cancer throughout the state of Michigan.

Will my doctor see my responses?

- **Yes**, the results of your questionnaire will be provided to your doctor who may use your responses to help improve your care and recovery after surgery.
- Your answers will remain **secure and confidential** between you and your doctor.

How do I participate?

After scheduling your surgery:

- Check your email for a message:

From:

MUSIC@arborresearch.org

Subject:

“A Message from Your Physician”

Prior to your surgery:

- Click on the [link](#) provided in the email to complete the questionnaire
- Answering all the questions will take approximately 10 minutes

After your surgery:

- You will receive your MUSIC PRO questionnaire at **1, 3, 6, 12, and 24** months following your surgery
